(H) Dear [REDACTED]

This is a memo in regard to expansion of the manual on trickery.

The manual as it now stands consists of the following five sections:

1. Underlying bases for the successful performance of tricks and the background of the psychological principles by which they operate.
2. Tricks with pills.
3. Tricks with loose solids.
4. Tricks with liquids.
5. Tricks by which small objects may be obtained secretly. This section was not considered in my original outline and was suggested subsequently to me. I was, however, able to add it without necessitating extension of the number of weeks requested for the writing. Another completed task not noted in the outline was making models of such equipment as has been described in the manual.

As sections 2,3,4 and 5 were written solely for use by men working alone the manual needs two further sections. One section would give modified, or different, tricks and techniques of performance so that the tricks could be performed by women. The other section would describe tricks suitable for two or more people working in collaboration. In both these proposed sections the tricks would differ considerably from those which have been described.

I believe that properly to devise the required techniques and devices and to describe them in writing would require 12 working weeks to complete the two sections. However, I cannot now work on this project every week and would hesitate to promise completion prior to the first of May, 1954.

I shall await your instructions in the matter.

Sincerely yours

MEMORANDUM FOR THE RECORD

SUBJECT: Project MKULTRA, Subproject 19

(C) 1. Under a previous Subproject (Subproject 4) a manual was prepared by Mr. [REDACTED] dealing with the application of the magician's art to covert activities such as the delivery of various materials to unwitting subjects. The basic assumption in the preparation of the manual was that the "performer" or agent was a man working alone.

2. Subproject 19 will involve the preparation of two additional sections to the manual. These are (1) Modified or different methods and techniques for use if the performer is a woman, and (2) Methods and techniques that can be used where two or more people can work in collaboration.

(C) 3. The work will be done by Mr. [REDACTED]. It is estimated the job can be completed in twelve working weeks (not necessarily consecutive). It is estimated the job will be completed by May 1954. The estimated cost is \$1,800.00.
